- 12+ years of experience in building & managing user centric digital products, love to take data driven decisions and solve business problems
- In Mckinsey, primarily responsible for managing firm global HR system and HR Analytics platform
- Currently undergoing 18 Months Executive Program in Business Analytics, Data Science, AI & ML from ISB to be completed in December 2020

WORK EXPERIENCE

ACHIEVEMENTS

- Among top 100 candidates selected for International Antarctica Expedition in 2017 which is featured in BBC, Huffington Post, Times of India & HT
- TEDx Speaker at GGDSD College Chandigarh
- Leading Scrum Alliance Chandigarh Chapter since 2014

ACADEMIC BACKGROUND

PUNJAB ENGINEERING COLLEGE, **CHANDIGARH**

B.Tech. in Information & Technology (2004-2008)

MICA, AHMADABAD

Post-Graduate Certificate in Business Management (2016-2017)

ISB, HYDERABAD

AMPBA - Advanced Management Program in Business Analytics (July 2019 - December 2020)

SKILLS

- AI/ML ALGORITHMS
- MATHEMATICS FOR AI/ML
- STATISTICS
- BIG DATA HADOOP & SPARK
- PYTHON & R
- TABLEAU
- TEXT ANALYTICS
- WEB SCRAPING
- DIGITAL MARKETING
- SENSOR BASED THINKING TO PRODUCT DEVELOPMENT
- AGILE FRAMEWORK SCRUM & **KANBAN**

SENTIMENT ANALYSIS / TEXT **ANALYTICS**

Business Problem: Knowing strong & weak features of Kia Seltos & its competitors can increase sales & improve features of upcoming Kia SUV models

Tools & Techniques:

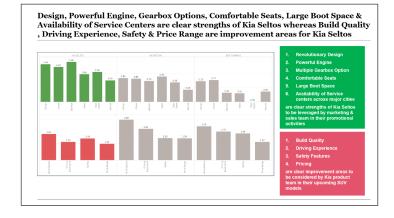

- Data Collection: Web Scraping using Selenium
- Topic Modelling: UDPipe, LDA (Latent Dirichlet Allocation)
- Sentiment Scoring: Dictionary based sentiment scoring (BING, AFINN, NRC, QDAP & Valence Shifters)
- Tableau Visualization
- Python & R for Data Analysis

LINER REGRESSION / HOUSE PRICE PREDICTION - KAGGLE COMPETITION

Business Problem: Predict sales price of residential homes in Ames, Iowa

Tools & Techniques:

- Linear Regression: OLS Method
- EDA & Modelling: Python & R

RMSLE - 0.14618

Resources

<u>Code</u>

Dataset

Presentation

Predict sale price of residential homes in Ames, Iowa using linear regression

14 features out of 80 are used to predict house price with 88.02% accuracy

- Overall material & finish quality of the house
- Remodel Year Number of fireplace in the house
- Living area above ground (In sq. feet) Total basement area (In sq. feet)
- Garage area (In sq. feet) Finished basement area (In sq. feet)
- 7. Finished basement area (In sq. feet)
 9. Original construction date of the ho
 10. Wood deck area (In sq. feet)
 11. Open porch area (In sq. feet)
 12. Class of building
 13. Heating condition & quality

 Kitchen condition.

- are significant parameters in predicting house prices in Ames, lowa

Call: lm(formula = SalePrice ~ ., data = train_dataset1) Residuals: Min 1Q Median 3Q Max -0.82010 -0.05953 0.00782 0.07169 0.49117 Residual standard error: 0.1229 on 1314 degrees of freedom Multiple R-squared: 0.8817, Adjusted R-squared: 0.8802 F-statistic: 576.3 on 17 and 1314 DF, p-value: < 2.2e-16
